BOUHCINE AMEZOUAR

FULL-STACK DEVELOPER

Casablanca, Morocco | amezouarbouhcine@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Full-Stack Developer and 1337 Coding School student with an OFPPT diploma and internship experience building web and database-driven applications. Develops responsive interfaces, REST APIs, authentication, and appointment-booking workflows using Next.js, NestJS, TypeScript, PostgreSQL, and Prisma. Experienced with Docker, networking fundamentals, and collaborative development.

TECHNICAL SKILLS

Frontend: Next.js, React, TypeScript, JavaScript, Tailwind CSS, HTML, CSS

Backend: NestJS, Laravel, REST APIs, Better Auth

Databases: PostgreSQL, Prisma, MySQL, SQLite, Supabase

Tools & Infrastructure: Docker, Docker Compose, RabbitMQ, Git, Linux, Resend

Concepts: Microservices, Authentication and Authorization, RBAC, Database Design, API Design

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern - DM-Decore | PFE internship | May-Jun 2023 | Casablanca

- Collaborated on an e-commerce application using React.js and Laravel, developing frontend features and backend functionality.
- Integrated user interfaces with APIs and MySQL-backed application operations using Git in a team environment.

Web Development & Database Intern - NetoneMaroc | Jul-Sep 2023 | Casablanca

- Organized and managed application data and built frontend interfaces for viewing and interacting with database information.
- Improved presentation and usability of database-driven interfaces through frontend development.

SELECTED PROJECTS

Maou3idy - Healthcare Appointment Platform | 1337 ft_transcendence | Team of 5

- Implemented appointment-booking logic connecting doctor schedules, available slots, patient reservations, and appointment records.
- Developed slot creation and management, appointment cancellation and completion workflows, and related REST API integrations.
- Built doctor scheduling/dashboard features and a patient-facing booking interface with Next.js and NestJS.

Stack: Next.js, NestJS, TypeScript, PostgreSQL, Prisma, Docker, RabbitMQ, microservices

Atlas - Team & Project Management Platform | Personal project | In development

- Building a project and task-management application with boards, user authentication, role-based permissions, and administration.
- Working with Better Auth for email/password sign-in, verification and recovery, and Resend for transactional emails.

Stack: Next.js, React, TypeScript, NestJS, PostgreSQL, Prisma, Tailwind CSS

Webserv & Inception | 1337 Coding School

- Webserv: Worked with HTTP request/response handling, TCP/IP sockets, and server configuration in a low-level networking project.
- Inception: Configured multi-service Docker environments with containers, networks, volumes, and Linux services.

E-Commerce Frontend | Personal project

- Developed a responsive e-commerce interface focused on reusable components, product presentation, and navigation.

EDUCATION

1337 Coding School - 42 Network | Software engineering / computer programming | Current student

OFPPT - CFPM Sidi Moumen | Technicien Spécialisé en Développement Digital - Web Full Stack | 2021-2023

Baccalaureate | Life and Earth Sciences (SVT) | 2020-2021

LANGUAGES

Arabic: Native | English
